

Metalworking

# Industrial Vacuums

- for safer and cleaner metalworking facilities

# We Make a Dirty Job Easier

- collect, separate and recycle dust and debris

Cleaning is critical to the smooth operation of your plant. Yet it's also a tough, time-consuming chore. Nilfisk industrial vacuums are reliable, simple to operate, and require virtually no maintenance. They guarantee a swift, thorough cleaning so you get the job done right the first time and increase compliance with industry regulations.

"Our Nilfisk industrial vacuums run virtually maintenance-free – and they run 24 hours a day, 7 days a week. That's impressive performance."

David Ayers  
Continuous Improvement Technician

## Industrial Vacuums for Your Unique Applications

### General-to-Detailed Cleaning

- General Maintenance
- Central Vacuum System Applications
- Explosion Hazard Environments

### Powder Coating

- Overhead Cleaning
- Equipment, Floor & Wall Cleaning
- Pneumatic/Air-Operated Applications

### Metalworking Fluid

- Oil-Based Fluid Reclamation
- Water-Based/Aqueous Fluid Reclamation
- Machine Sump Cleaning
- Finished Product Cleaning
- Fixture & Machine Cleaning
- Machine Tool/Equipment Cleaning

## Nilfisk Performance Advantages

Whether you're housekeeping around the plant, collecting ultra-fine powders in a powder coating booth, or recovering MWFs from a machine sump, only Nilfisk's vacuums provide all the features you need to make the job easier.

- Grounded hoses, airlines and conductive accessories eliminate static discharge
- Simple, safe waste disposal options
- Efficient bulk collection with large-capacity separators and hoppers
- Prevent recirculation of harmful oil mist with special filtration pads and coalescing filters
- Multi-stage filtration system protects vacuum filters from blockage and improve performance

## Collect, Separate and Recycle...

Nilfisk oil vacuums—VHO200 and Eco-Oil series—are designed to retrieve metal shavings, lubricants, and coolants, filter out debris, and pump the purified fluids directly into the reservoir tank, all without leaving the sump.

- Filter debris down to 100 microns
- Cut fluid reclamation time in half
- Produce cleaner MWFs for immediate reuse
- Save fluid replacement costs
- Maintain higher integrity of end products
- Extend the life of machinery and tools

**KEEP PROCESS EQUIPMENT CLEAN AND RUNNING AT PEAK PERFORMANCE**

**VERSATILE CLEANING, FROM FLOOR TO INSIDE PROCESS EQUIPMENT**

**RECYCLE COOLANTS AND LUBRICANTS WITH PUMP OUT FEATURE**

**SAFELY COLLECT COMBUSTIBLE DUSTS**

**RECOVER AND RECYCLE DEBRIS AND LIQUIDS SIMULTANEOUSLY**

**COLLECT METAL CHIPS FROM FINE DUST TO LARGE DEBRIS**

## Safe Choice Commitment

At Nilfisk Industrial Vacuums we understand that you face many risks each day, just by operating your business. That is why Nilfisk is dedicated to helping you make smart choices to keep your facility and your workers safe. Our team of experts is ready to tackle any cleaning challenge – because in a world full of risk, you have to make safe choices.

## Expert Support

We support you with a highly-trained direct sales team. Dedicated to solving your individual challenges, our team analyzes your processes and recommends the best vacuums and features for your particular application.
